Food processing laborers perform material handling, clean up, packaging and other elemental activities related to meat.

The laborers perform some or all of the following duties:

- Transport raw materials, finished products and packaging materials throughout plant and warehouse manually or with powered equipment;
- Skin, clean and trim carcasses;
- Remove viscera and other inedible parts from carcasses;
- Split carcasses into smaller portions;
- Remove skin, excess fat;
- Measure and dump ingredients into hoppers of mixing and grinding machines;
- Feed flattened boxes into forming machines to construct containers;
- Remove filled containers from conveyors and manually pack meat into bags, boxes or other containers;
- Clean work areas and equipment;
- Feed and unload meat processing machines;
- Check products and packaging for basic quality defects;
- Assist process control and machine operators in performing their duties.
